

NEXUS TECHNOLOGIES

Q2 2026 Earnings Report

Investor Relations | Quarter Ended June 30, 2026

Executive Summary

Nexus Technologies delivered total Q2 2026 revenue of \$117.4 million, up 9.2% year-over-year, driven by continued strength in Cloud Services and AI & Analytics. Net margin held steady at 41.3% company-wide, reflecting disciplined cost management across all three operating regions.

Revenue by Segment

Segment	Q2 2026 Revenue	YoY Growth
Enterprise Software	\$30.5M	+6.1%
Cloud Services	\$48.3M	+11.8%
AI & Analytics	\$38.6M	+9.7%

Regional Performance

Region	Revenue	Headcount	Operating Margin
North America	\$62.1M	475	44.2%
Europe	\$36.9M	305	39.8%
Asia-Pacific	\$18.4M	225	36.5%

North America remains our largest market by revenue, while Asia-Pacific posted the fastest headcount-adjusted productivity gains this quarter.

Operating Expenses

Total operating expenses for Q2 2026 were \$54.2 million, representing 46.2% of revenue, down from 48.1% in Q2 2025. Research and development spend increased 14% year-over-year to support continued investment in our AI & Analytics platform.

Customer Metrics

Nexus ended Q2 2026 with 1,840 enterprise customers, a net addition of 96 during the quarter. Net revenue retention was 118%, reflecting strong expansion within our existing customer base. Customer churn remained low at 2.1% annualized.

Product & Platform Highlights

During Q2, Nexus launched two new modules within its AI & Analytics suite: an automated anomaly-detection engine and a natural-language query interface for the core data warehouse product. Early adoption among existing Cloud Services customers has been strong, with over 300 customers enabling the new modules within the first six weeks of general availability.

Balance Sheet Summary

As of June 30, 2026, Nexus held \$210.4 million in cash and cash equivalents, with no outstanding long-term debt. The Board approved a continuation of the existing share repurchase program, with \$45 million remaining under the current authorization.

Competitive Landscape

The enterprise AI infrastructure and analytics market remains highly competitive. Nexus continues to track performance against key industry peers to inform strategic planning and market share estimates.

Primary Competitor: Vantage Analytics Corp

Vantage Analytics Corp remains our primary competitor in the enterprise AI & Analytics segment. Based on Vantage's most recently available public disclosures at the time this report was prepared, **Vantage reported Q2 2026 revenue of approximately \$142.0 million**, reflecting continued growth in their cloud-native analytics offering. Nexus management estimates our combined-segment revenue (Cloud Services + AI & Analytics, \$86.9 million) represents approximately 38% of the addressable market currently served by Nexus and Vantage combined, based on the figures available as of this report's preparation date.

Secondary competitors in this space include Orbital Data Systems and Meridian Cloud Group, though neither currently discloses segment-level revenue figures comparable to the AI & Analytics category tracked in this report.

Risk Factors

Our business is subject to a number of risks, including but not limited to: intensifying competition in the AI & Analytics market, potential customer concentration in our Enterprise Software segment, currency fluctuation exposure from our international operations, and evolving data privacy regulations across the jurisdictions in which we operate.

Guidance

For Q3 2026, Nexus expects total revenue in the range of \$121 million to \$126 million, representing year-over-year growth of approximately 8% to 12%. This guidance reflects continued momentum in Cloud Services partially offset by typical seasonal softness in Enterprise Software renewals during the third quarter.

Forward-Looking Statements

This report contains forward-looking statements regarding future financial performance, market conditions, and competitive positioning. Actual results may differ materially from those anticipated due to a variety of factors, including those described in the Risk Factors section of this report.
